HELLO, BRIGHTER SKIN!

WITH ORGANIC **HIBISCUS** & **LEMON**

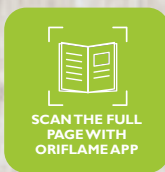

Hibiscus flower, native to tropical regions, contains polysaccharides which can help to **moisturise** and **soothe** skin, it is known to have antioxidant properties that offer protective benefits to skin.

Lemons help to **brighten** skin by inhibiting tyrosinase – the key enzyme involved in melanin production.

DID YOU KNOW?

Lemons' effect on tyrosinase can be demonstrated in the kitchen. Think about when you have cut into an apple, banana or avocado. If you leave it for a short time the fruit starts to turn brown. This is because the tyrosinase in the fruit causes the fruit to brown. If you squeeze some lemon juice over the fruit however, it helps to prevent this "browning effect".
